

The Ninth International Conference on Verification, Model Checking, and Abstract Interpretation

San Francisco, USA, January 7-9, 2008

Conference website: <http://www1.cs.uic.edu/vmcai08>

Paper submission website: <http://www.easychair.org/VMCAI08/>

=====

VMCAI provides a forum for researchers from the communities of Verification, Model Checking, and Abstract Interpretation, facilitating interaction, cross-fertilization, and advancement of hybrid methods.

VMCAI'08 is co-located with the POPL'08 conference.

The program of VMCAI'08 will consist of invited lectures, tutorials, refereed research papers, and tool demonstrations. Research contributions can report new results as well as experimental evaluations and comparisons of existing techniques. Topics include, but are not limited to:

- | | |
|-------------------------|-----------------------|
| program verification | program certification |
| model checking | debugging techniques |
| abstract interpretation | abstract domains |
| static analysis | type systems |
| deductive methods | optimization |

Submissions can address any programming paradigm, including concurrent,

constraint, functional, imperative, logic and object-oriented programming.

Papers must describe original work, be written and presented in English, and must not substantially overlap with papers that have been published or that are simultaneously submitted to a journal or a conference with refereed proceedings. The proceedings will be published by Springer in the Lecture Notes in Computer Science series.

The page limit for submissions is 15 pages in Springer's LNCS format.

Additional material may be placed in an appendix, to be read at the discretion of the reviewer. Formatting style files can be found at:

<http://www.springer.de/comp/lncs/authors.html>

Submissions deviating from these guidelines risk summary rejection.

Important Dates:

Submission Deadline: September 14, 2007

Notification of Acceptance: October 31, 2007

Final Version Due: November 20, 2007

Conference: January 7-9, 2008

Steering Committee:

Tino Cortesi, Università Ca' Foscari, Venice, Italy

Patrick Cousot, École Normale Supérieure, France

E. Allen Emerson, University of Texas at Austin, USA

Giorgio Levi, University of Pisa, Italy

Andreas Podelski, University of Freiburg, Germany

Thomas W. Reps, University of Wisconsin at Madison, USA

David Schmidt, Kansas State University, USA

Lenore Zuck, University of Illinois at Chicago, USA

Program Chairs:

Francesco Logozzo, Microsoft Research, Redmond, USA

Doron Peled, The University of Warwick, United Kingdom

Lenore Zuck, University of Illinois at Chicago, USA

Program Committee:

Roberto Bagnara, University of Parma, Italy

Christel Baier, Technische Universität Dresden, Germany

Clark Barrett, New York University, USA

Tino Cortesi, Università Ca' Foscari, Venice, Italy

Radhia Cousot, CNRS, France

Nicolas Halbwachs, Vérimag, Grenoble, France, Tom Henzinger

Ecole Polytechnique Fédérale de Lausanne, Switzerland

Michael Huth, Imperial College, London, United Kingdom

Orna Kupferman, Hebrew University, Jerusalem, Israel

Rustan Leino, Microsoft Research, Redmond, USA

Francesco Logozzo, Microsoft Research, Redmond, USA

Alan Mycroft, Cambridge University, United Kingdom

Catuscia Palamidessi, INRIA, France

Doron Peled, The University of Warwick, United Kingdom

Frank Pfenning, Carnegie Mellon University, Pittsburgh, USA

Andreas Podelski, University of Freiburg, Germany

Tayssir Touili, CNRS, France

Andrei Voronokov, The University of Manchester, United Kingdom

Lenore Zuck, University of Illinois at Chicago, USA
